

Table 1: Comparison of model candidates. Personal graphical models with different reaction model candidates are evaluated with NRMSE for each modeled concentration and average model error.

Reaction model	NRMSE			
	P-K	fP-Pi	P-Alb	average error
mv3_cross_two_levels	0.003	0.006	0.002	0.003
mv3_cross_single_level	0.078	0.233	0.103	0.078
separate_pk_fppi	0.081	0.175	0	0.081
